

Worry free backup....

E Logix managed backup ensures your critical information is securely stored for all your company's desktops, laptops & servers.

Why Back-Up your Data?

"Over 40% of businesses that do not have a backup system go out of business after a major loss like a fire, a break-in, a storm, or sabotage".

Data loss happens often, imagine you loss all of your important company document's such as policies, customer contacts, invoices, financials, it can be devastating.

We take a different approach.

Given how critical backups are, our goal for the E Hub Managed Services is simple. We manage the entire system, from making sure our backup boxes are healthy, backing up the correct data, to monitoring for failures.

Secure Backup

Data Hub takes the security and privacy of your data seriously. All your files are encrypted with the same security as banks use.

100% Automated

Automatically backup your computer silently in the background to a schedule of your choice without you having to do anything.

Access Files Anywhere

Login to your web control panel to access files from any computer with Internet access download files from the cloud

Affordable

Low-Cost solutions that helps you protect your valuable data.

How It Works.

1. We come to you and assesses your data.
2. We provide you the appropriate storage needed for your data.
3. We install, setup and configure the E Hub software on your systems.
4. We manage and monitor all your backup's
5. You relax and leave it to us.
