### ELEVATE YOUR COMMUNICATIONS

A fully integrated business communications and collaboration platform that combines a phone system, video, screen sharing into a seamless experience.

- Easy to manage with a single user-friendly control panel
- 99.999% uptime service level agreement (SLA)
- Flat, per-user rate with unlimited local and domestic long distance
- Integrated video conferencing and screen sharing.
- Desktop and mobile application (PC, MAC, iPhone, Android)
- Local onsite installation and support.

# Take your business to the next level – with fully integrated unified communications

## INCREASED PRODUCTIVITY & COLLABORATION

- Mobile devices interact seamlessly with the corporate phone system.
- Anywhere, anytime, and on any device, creating a more flexible workforce.
- Video conferencing and screen sharing empowers collaboration in real time.

## LOWER COST

- Lower infrastructure and operating costs compared to traditional phone service.
- Reduces infrastructure and operating costs; no additional hardware to buy.
- Consolidates voice and data onto one network.
- Flat, per-user rates with unlimited domestic local & long-distance calling.

## HIGHLY RELIABLE

- East and West coast datacenters provide redundancy and minimize latency.
- Stringent prequalification guidelines and proprietary VoIP network testing help ensure a reliable connection and crystal-clear voice quality.

## BUSINESS CONTINUITY

- The Elevate mobile app has full business phone functionality to be used in the event that desk phones become unavailable.
- Cloud based systems are immune to local outages. Elevate will try all user devices, then dial phone numbers like cell phones, hunt groups, or other auto attendants.

## Industry proven major brands.....

Cisco SPA

Yealink T Series

Yealink Cordless

Polycom V Series

Conference Phones

## ELEVATE DESKTOP & MOBILE APP'S

Elevate desktop acts like a desktop phone via softphone.

Elevate mobile app enables a mobile device to become a communication endpoint.

- **All the most important features of your desk phone, right on your mobile device**
- **Call Flip feature moves active desk phone calls to the caller's mobile devices**
- **On-screen indicator lets you know if your contacts phone is busy, before you call**
